TRENDING IN THE GAME

Inside Look

First off, tell us a little about yourself? My name is Marisa Rey, and I am from Tennessee. Graduated and played softball at LSU. I drive foreign cars only! Especially my Mercedes Coupe C350 aka Christine. I love music, fishing and shopping.

Entertainer Of The Quarter

2022 2nd Quarter Edition

Marisa Rey

What made you pursue a career in the music entertainment field? I slapped my boss at the Atlanta Airport. At that point, I knew it was time to really pursue my music career and follow my dreams. Plus, music raised me! I depend on music on good days and bad. I LOVE MUSIC!!!! Writing music is therapeutic for me and it inspires others.

How did you get into riding motorcycles? I have always loved motorcycles since I was a little girl. I love the speed, sound and smell of exhaust. I have been riding for over 10 years. I was a member of the Ruff Ryders (Nashville, TN & Atlanta, GA), Savage Riderz MC (Baton Rouge, LA), Goon Squad MC (Nashville, TN). I currently ride a 2018 Suzuki GSXR-750 aka Black Beauty.

Who are some people that influenced you to do music? My friend Keith Thompson (RIP) and all female rappers in the game have been an influence...especially Nicki Minaj, Lil Kim, Gangsta Boo, La Chat and Missy Elliott.

What you think about the internet impacting indie artists without a need of a major record label to get their music out worldwide. With technology at our fingertips...it gives indie artists like myself more room to self-promote. There are plenty of social media and music platforms for an indie artist to push their projects with just the click of a button!

How would you describe the music that you typically create? I create music that people can relate too. Yeah, I got some twerky twerk and Nasssty music. But I make music for people that grind everyday, for people who are tired of WAP music and it's a blessing to express my art.

What's your music style of like? Rap with an RnB Touch (Southern Style)

How you feel about how the females has stepped up in the music industry? It is AMAZING to see female rappers doing their thing in the industry. But it seems if you aren't "Plastic" then the industry doesn't want to look your way. Or rappers feel they have to be butt-ass naked to make a good song....which is far from the truth. I would like to see more rappers focused on real hardcore rapping versus TWERK, TWERK, TWERK. There are many female rappers who never got naked.

What's your biggest accomplishment so far? My biggest accomplishment has been the fact that I am now working on my 4th independent album.

If you could work with any artist, who would it be? And why? I would like to work with Missy Elliott. She is very versatile; fashionista and she seems like she would be a great Music Coach.

If you could collaborate with any artist, who would it be? I would like to collab with Megan Thee Stallion

If you could go open a show for any artist, who would it be? I would like to open up for Travis Scott

If you were talking to a younger version of you, what advice would you give yourself?
Fuck Relationships

You could pass on a nugget of wisdom to the next musical female generation, what would it be? Don't get caught up in the hype, you don't have to be naked to make a hit and stay focused on your dreams and goals.

MUSIC IS NOW!!!

THE PRODUCER WORLD

§ SHERM §

I really enjoyed the trombone and learning how to read music along with traveling and participating in state wide competitions, but it was just enough to start creating the music I heard in my head. I never really learn how to read music, but I knew my scales and could listen to a song one time and play it back. I Nick Cannon all the way till I got to high school, Sherm said. It helped me in the marching band remembering songs but I hated band practice and decided to play sports instead. By now I'm in the 10th grade so after practice I would run home and lock up in my bedroom. I discovered Fruity Loops but it wasn't as advance as it is now. I took what knowledge I did pick up on in band and put it into making some beats. My cousin had a studio back then where I would go and run into some of the guys who was rapping at the time.

Shermell 'Sherm' Davis, a Producer, from Albany Georgia just two hours southwest of Atlanta. My story is somewhat similar to most folks who started out in music. I come from humble beginnings, in a single parent household, born and raised in a small country town with big city dreams. My family is a music loving family, although we didn't have much growing up, as a kid, I always remembered us getting together playing music and cooking some food. Before my dad got sent off, he left behind a lot of his old records from the 70s and 80s along with a nice stereo system. My mom would always play music too while we clean up the house. I remember a lot of those old school soul songs and different melodies from me hearing them then, Sherm said. Sherm spent the most of his years growing up living with his grandmother, where she would send for him to go to church for bible study and attend church for Sunday school. I would only stay for the service a lot of times just to watch the drummer play, Sherm said. My interest was in the beat and how it moved the folks in the congregation. I joined the band in middle school wanting to play the drums but end up on the Trombone.

Although they didn't like my beats and I often got picked at, that didn't stop me from creating and so I stuck around and learn to track vocals and mix. After years passed and working with some major recording artist landing placements, Sherm toured with artist(s) in the southern region of the US where he was introduced to other sounds and music professionals. Davis started his own production and music publishing company, where he launched Grind Factory Music Publishing in 2010. With the opportunity for a Music Supervisor, Sherm was introduced to the film world threw Maverick Film. Sherm took on a new path in film which later on went winners of Audience Choice Award, Buffalo Niagara Film Festivals, and Palm Beach International Film Festival.

Today, you can find Sherm working on building his business in collaboration with other producers forming his production catalog for artist and film projects. I want to do TV, Sherm said, I believe with all the reality tv shows now and how affordable it is to pick up a camera and film nowadays somebody going to need some background music. When asked, "What's next"? With his normal, quiet and laid back demeanor, Davis says, "my short term goal was to be a Hot Producer ", when God says it's time to become larger, I'll be prepared.

Issue no.23 . **WOMEN IN BUSINESS** *Kentazha Bradshaw made the headlines!*

First off, tell us a little about yourself? I am a 33 year old proud black female/mother. I'm a nature driven person with a big heart.

What made you pursue a career in the entrepreneurship? I decided to go forth with my artwork because of the unexplained peace I get from it. Yes, of course, reaping the benefits from the money is a great thing, but to be able to express myself freely through creativity is priceless.

What do you think about the rise of female entrepreneurship? Me watching so many female artists uprising has been beautiful and very encouraging.

Who are some people that influenced you to become an entrepreneur? I have several women that I've watched in the same field as I am going to, but the two that I follow the most is Mrs. April Walker of Thomasville Ga and an Instagram person I found by the name of Sonja Arroyo.

What do you think about the internet's impact on helping entrepreneurs to move their products in today's time? In today's time the internet is crucial to networking and selling your products.

How would you describe the products you typically create? The things I get in the lab and create are custom. That's what I love the most about my work. There's only 1 of the item, set or picture created for that particular person.

What's your biggest accomplishment so far? My biggest accomplishment so far has been the smiles I've placed on individuals/families faces from just sharing a piece of my brain.

If you could work with any entrepreneur, who would it be? And why? If I could work with someone it would be Mrs. Walker as I absolutely adore her work.

If you were talking to a younger version of you, what advice would you give yourself? If I had to speak to my younger version of me, I'd let her know she is not crazy nor incapable. That all she ever had to endure just to make it to adulthood has been transformed into Art and I WILL tell her story.

If you could pass on a nugget of wisdom to the next generation of entrepreneurs, what would it be? My advice to the next generation of entrepreneurs is never stop, never give up and never give in.

BIG MAC SKILLET

WHITE SAUCE TOPPING INGREDIENTS:

- 2 tbsp of Butter
- 1 tbsp flour
- 1/2 Cup Heavy Cream
- 1/2 Cup Shredded Mozzarella Cheese
- 1 tsp chopped Garlic

CHEESE SAUCE FOR MACARONI INGREDIENTS

- 1 1/2 Cup of Heavy Cream
- 2 tbsp Old Bay Seasoning
- 1 Stick of Butter
- 1 tbsp flour
- 1 Cup Sharp Cheddar Cheese
- 1 Cup Colby Cheese

ONION RINGS

- 1 Sliced White Onions
- Batter

Now cook your steak to your liking and place aside. Then prepare your sliced onion rings and now it's time to get your white cheese topping made by adding your butter to a saucepan and once melted add your flour and mix until flour is cooked down for about 20 seconds then add your heavy cream. Then let it add your garlic. Then turn off the heat then add your shredded mozzarella cheese and continue to stir until melted.

Now that all of your food items are cooked. Turn your oven on to broil at 350 degrees. Add your macaroni to a small skillet and if you don't have one. You can add it to an oven safe dish then add some sharp cheddar cheese sauce on top and place in over and cook until cheese is golden brown then remove from the oven. Then add your steak to the center on top of the macaroni then carefully stack your onion rings and pour your white cheese sauce on top. Sprinkle some Parsley flakes and you are ready to devour the Big Mac Skillet.

Prepared Macaroni

Steak

I used a Lamb Steak but you can use whatever style of steak you would like.

Instructions

First cook my macaroni (please follow the cooking instructions on the package). Then I will start my cheese sauce by putting my butter into a small pot over medium heat until melted. Then add your flour and stir until flour has cooked out for less than a minute. Then add the heavy cream. Mix well then add the garlic and old bay seasoning. Then let sauce cook for about two minutes then turn your heat off, then add your cheese and mix until melted.

Once it's complete, add your cheese sauce to your macaroni and it's complete.
