Bio

Birth Name: Johnny Clay
 Nickname: Dirty Head
 Height: 6'4"

Biography:

When it comes to hip hop in Georgia, a lot of people talk about rappers out of Atlanta. They never talk about rappers out of the more country side of Georgia. Southwest Georgia is the more country side of hip hop. There is more country sling in the music so that is what makes the music different. In a small town by the name Dawson, Georgia, outside of Albany, Dirty Head is making some noise with music like Damn Rite, Tags, Everything, and other music that is now playing.

The name Dirty Head comes from the gritty rhyming skills, Dirty Head born as Johnny C Clay Jr, attended school at Terrell High where he Join the band and became a drum major. He has outstanding awards and was an outstanding percussion leader. Dirty Head started rapping in 1998 and found out that music is what he wanted to pursue. He later formed a group which included members Maintain, Shine, Caliber J (a.k.a. Suthern Jones), and himself known as 187 click. Dirty Head and Caliber j teamed up with S.O.A Click member OG and created a hit song by the name of "This Ain't What You Want" this song caught the attention of the local area.

The song created a buzz that had entered them into Lil Jon BME show case that they did not attend. Everyone decided to go their own way and the group soon broke up. In 2010 Dirty Head moved back to Dawson G.A and found out that his longtime friend Daryl Jones a.k. a (suthern jones)

Was still doing his thing but the only difference was he was running a label. Suthern talked about making Dirty Head his headline artist but they never made a move. In 2013 Suthern Jones (C.E.O of Black Ice 45 MG) took

Dirty as his first artist and has started a buzz, there is no doubt Dirty has the power that is truly going to make the touch down.

Serina McDonald CEO & Founder of Rinakreeps Promotion & Entertainment who was born in the rough parts of Sugar Hill, NY in 1982. She came from a very large family who taught her she can be anything she wanted and they would support her no matter what when many felt she would be another statistic.

Around 14 years old Serina started getting in trouble allowing her temper to get the best of her. She started listening to music to drown out the negativity around her. Around the age 18 she realized she was headed down the wrong path and she needed to change her life. Slowly but surely her life started coming together. She went back for her GED and decided to continue her education with a medical degree and graduated Magna Cum Laude. With this accomplishment she got her first real job in "corporate America" at age 21 she has been employed with the same company since.

In 2013 she realized she had passion for music but she never been the rapping or singing type but she knew she had to take her love for music and use it. During a conversation with a dear friend Certified Love she started Rinakreeps Promotion & Entertainment combining her nickname with a nickname of a very important person in her life.

Rinakreeps Promotion & Entertainment was started to help indie artist male or female get their music promoted at affordable prices. Since then she has started planning, organizing and assisting with many open mic showcases throughout the Atlanta area. She has started managing & building Truckstop Musik Group Freightliner Joe music career and looking forward to working with other artist in the future.

She feels music is a way for these young men and women in America today to express their self. Let's empower these young men and women of all nationalities to use their talents. All they need is motivation & networking skills which we hold the key to let's teach them how to use it.

Lavaneka Stanae Grier better known as MAC BRE-Z da Kandi Lady aka Ms.Mutha Nature is a grady baby born & raised out of Atlanta, Ga. This rising star grew up in the hood of Mechanicsville (Westside Zone 3). Bre-z was blessed with good looks from her parents, Vanessa & Stanley Grier. Mac was spoiled rotten with one brother (Stanziel) & moved to East Atlanta Zone 6 in Decatur, Ga shortly after her parents divorce. Whenever Bre-z couldn't get a hold of her diary she would express her feelings, thoughts, and opions in her songs. Meanwhile, attending Miller Grove Middle School, Mac Bre-Z became very popular & was voted/crowned Miss GQ when she was only in the 7th grade.

The multi-talented young lady participated in a step team called Xi Delta Phi founded by Mrs.Turner Moore. She was given the line name Bre-z aka Baby P.H.A.T by her step team members who said "She's cool as hell & she's known for sporting the latest Baby Phat trends". The nickname followed her to Redan High School, where classmates constantly made jokes about her secret admirers. From that point on she became known as Mac Bre-Z, which she now uses as her alias. Timothy Brantly convinced her to perform @ Columbia High School's Annual talent show hosted by DJ Greg Street of V103, in which she was discovered by a local promoter. Shortley after she was signed to Dee Money records & released her first single "Uh-Oh". DJ Scream dropped her first solo mixtape "Making All The Cash" which debuted her creative diversitility and her Glam Crunk whip-appeal. In 05' she featured on Gucci Mane's hit single "Go Head" (produced by Nitti) from his Trap House album and later signed to his label "LaFlare/So Icy ent".
